Project Design Phase-I
Customer Journey Map

Date	21 September 2026	**Student Name**	Pasapu Vineela
Team ID	Individual Project	**Regd. No.**	23KD1A05I0
Project Name	ServiceNow-Based Employee Laptop Request Application	**College**	Lendi Institute of Engineering and Technology
Maximum Marks	4 Marks		

Scenario: Requesting, getting approval for and receiving a company laptop through the ServiceNow Service Portal, for an employee of a new IT organization. **Primary persona:** Employee (requester), with the Manager (approver) and the IT team (fulfilment) as supporting users. **Based on:** the Phase 1 requirement analysis (business objective, functional scope, Record Producer, form fields and roadmap).

	Entice How does someone become aware of this process?	**Enter** What do people experience as they begin?	**Engage** In the core moments, what happens?	**Exit** What do people experience as the process finishes?	**Extend** What happens after the experience is over?
Steps What does the person typically experience?	• Needs a laptop (new joiner or new project) • Hears about the Laptop Request item from manager or IT	• Logs in to the Service Portal • Opens the Service Catalog and picks Laptop Request	• Opens the Laptop Request Form (Record Producer) • Selects type: Basic or Advance • Enters short description and reason • Submits the request • Receives a submission confirmation email • System checks the one-request-per-year rule	• Manager approves or rejects • Employee receives the decision (Approved / Rejected) • IT receives a fulfilment task and issues the laptop	• Request appears in request history with final status • IT and management view reports • Next request allowed in the next yearly cycle
Interactions People, places and things at each step	• People: manager, IT onboarding team • Places: office or remote • Things: email, chat, onboarding checklist	• People: none (self-service) • Places: Service Portal • Things: browser, login, Service Catalog	• People: employee, manager • Places: Laptop Request Form, approval task • Things: form fields, choice lists, Submit button	• People: manager, IT team • Places: Service Portal, email inbox • Things: status notification email, fulfilment task	• People: IT and management • Places: request list, reports • Things: status field, dashboard
Goals & motivations "Help me..." or "Help me avoid..."	• Help me get a laptop quickly to start work • Help me know the right way to request	• Help me find the request form easily • Help me avoid emailing and chasing people	• Help me pick the right type and reason • Help me avoid a rejected or duplicate request • Help me be sure my request went through	• Help me know if it is approved • Help me know when I will get my laptop	• Help me see my request history • Help IT see what has been allocated
Positive moments What is enjoyable, productive or delightful?	• Clear, standard way to request • No need to explain the process again	• Single place for all requests	• Simple, user-friendly form • Request number generated automatically • Requester, email and date auto-filled	• Instant status updates instead of follow-ups • Clear approval accountability	• Transparent tracking for everyone • Reports support better planning
Negative moments What is frustrating, confusing or time-consuming?	• Unsure who to ask or which laptop to request • Requests handled by email or verbally	• Cannot find the right catalog item • Needs login or access help	• Unsure whether Basic or Advance applies • Blocked by the duplicate-request rule	• Waiting for manager approval • Rejection without an understandable reason • Delay before the laptop is issued	• Only one request per year allowed • Reports are limited until later phases

	Entice How does someone become aware of this process?	Enter What do people experience as they begin?	Engage In the core moments, what happens?	Exit What do people experience as the process finishes?	Extend What happens after the experience is over?
Areas of opportunity How might we make each step better?	• Add onboarding information about the Laptop Request item • Link the item from the new-joiner checklist	• Add a shortcut or banner on the Service Portal home page • Single sign-on for faster entry	• Add help text explaining Basic vs Advance • Show a clear duplicate-request message with the previous request number	• Reminder to managers for pending approvals • Email and portal notification with approval comments • Show expected delivery date	• Dashboard of requests by status and type • Automatic yearly eligibility reset • Collect feedback on the process
